## PruLife® SVUL Protector<sup>SM</sup>

<p><b>Overview</b></p>	<p>PruLife SVUL Protector (SVUL Protector) is a second-to-die variable universal life policy designed to meet clients' needs in a cost-effective way. In addition to having its death benefit protection, clients have the ability to grow and access cash value with a wide variety of underlying investment options. It allows for customization like managing the length of the guarantee, the underlying investment options, and premiums.</p> <p>With its flexibility and competitive cost, SVUL Protector can be effective in many strategies, such as helping to transfer wealth, preserving assets for specific charities, providing future care for a dependent with special needs, allowing a business to live on, and meeting estate tax needs.</p> <p>Except in New York and California, SVUL also provides the ability to enhance coverage by adding the option to apply for Survivorship BenefitAccess Rider (SBAR), a chronic and terminal illness rider, available for an additional cost.</p>
<p><b>Target Markets</b></p>	<p>Consumers seeking low-cost death benefit protection on two lives and who are willing to assume the market risk and volatility to also have:</p> <ul style="list-style-type: none"> <li>▶ A way to preserve their assets for surviving family members or a specific charity</li> <li>▶ A way to offset estate taxes* or help with an estate planning need</li> <li>▶ The potential and flexibility to build cash value, which is accessible if their needs change</li> </ul> <p><i>*Life insurance death benefits are generally income tax-free (IRC §101(a)). There may be estate or other tax consequences. Clients should consult a professional tax advisor.</i></p>
<p><b>Design Highlights</b></p>	<ul style="list-style-type: none"> <li>▶ Cost-effective permanent life insurance protection that covers two insureds with a death benefit payable after both insureds have died</li> <li>▶ Meaningful No-Lapse Guarantee with first-year premium flexibility</li> <li>▶ Potential to accumulate cash value with 50 underlying investment options and a Fixed-Rate Option</li> <li>▶ Cash value flexibility</li> <li>▶ Option to add, if qualified and for an additional cost, the Survivorship BenefitAccess Rider for concerns about potential future chronic or terminal illness (not available in New York or California)</li> <li>▶ Age Last Birthday pricing</li> </ul>
<p><b>Auto Issue/Jumbo Limits<sup>1</sup></b></p>	<p><b>\$65 million</b></p> <p>“Auto-issue” refers to the maximum face amount that can be applied for on any one policy. “Jumbo” refers to the maximum total line that can be considered without review by Prudential’s reinsurance partners (applied for + in-force coverage). Both limits can be reduced by amounts in force and applied for and can also be reduced by factors such as age, ratings, residence, travel, and occupation. Higher capacity amounts will be considered on a case-by-case basis and may be subject to the availability of reinsurance.</p> <p>The capacity, or maximum face amount, may be subject to availability of reinsurance.</p>

<p><b>No-Lapse Guarantee</b></p>	<p>This product uses two lapse protection features that work consecutively:</p> <ul style="list-style-type: none"> <li>▶ During the first 10 years of the policy: A premium-based Limited No-Lapse Guarantee.</li> <li>▶ Thereafter: The Rider to Provide Lapse Protection (shadow account guarantee).</li> </ul> <p><b>The Limited No-Lapse Guarantee helps</b> protect against lapse provided that a certain level of premiums is received. As long as premiums paid into the policy, minus withdrawals, are equal to or greater than the amounts shown in the Table of No-Lapse Guarantee Values in the contract and the policy has no excess contract debt, the policy will not lapse. During the early years of the policy, the shadow account's No-Lapse Guarantee Value accrues but does not provide lapse protection.</p> <p><b>Once the Limited No-Lapse Guarantee expires</b>, a positive No-Lapse Guarantee Value provides a guarantee against lapse, assuming there is no excess contract debt. The length of this guarantee is "dialable" based on the desired level of funding and may be used to guarantee coverage for up to a lifetime.* Generally, the more premiums paid, the longer the guarantee will last. However, any alteration of the contract or premium payments (such as timing and amount of premium payments, face amount decreases, policy loans or withdrawals, or death benefit type changes) has the potential to shorten the No-Lapse Guarantee period.</p> <p>If the policy lapses, the No-Lapse Guarantee can be reinstated.</p> <p>* Maximum No-Lapse Guarantee available through age 90 in NY, after which the guarantee cannot be reinstated.</p>
<p><b>First Year Flexibility</b></p>	<p>Important information about premiums received in the first policy year:</p> <ul style="list-style-type: none"> <li>▶ Minimum Initial Premium (MIP): 8.6% of annual Limited No-Lapse Guarantee premium</li> <li>▶ First Year Flexibility: The No-Lapse Guarantee (Shadow Account) structure allows for increased flexibility in the timing of premium payments received in the first policy year. As long as premiums illustrated within the first year are actually received within that year, the No-Lapse Guarantee period will not be reduced. This is very beneficial for (1035 exchanges and) backdated policies where there is uncertainty about the timing of premium payments. This flexibility applies only during the first policy year. In subsequent years (Years 2+), premiums must be received within the month in which they are due in order to maintain the No-Lapse Guarantee period.</li> <li>▶ Sufficient premiums are still required throughout year one to maintain the Limited No-Lapse Guarantee and prevent the policy from lapsing.</li> <li>▶ Late premium payments in any year will always impact policy cash values.</li> </ul> <p>Note: Overfunding may cause a policy to become a Modified Endowment Contract, and there may be tax consequences.</p>
<p><b>Coverage Beyond Age 121</b></p>	<p>Basic Insurance Amount coverage continues beyond the time the younger insured reaches or would have reached attained age 121, provided the policy is in effect at the time.</p> <p>After the younger insured's attained age 121, the policy will continue to be credited with interest. However, premiums will no longer be accepted and charges, other than interest on any outstanding policy loans, will not be deducted.</p> <ul style="list-style-type: none"> <li>▶ If any amounts are allocated to the underlying variable investment options, mortality and expense risk charges and investment advisory fees will continue to be deducted.</li> </ul>

<p><b>Investment Options</b></p>	<ul style="list-style-type: none"> <li>▶ A full menu of variable investment options including:                             <ul style="list-style-type: none"> <li>- Asset Allocation</li> <li>- U.S. &amp; Sector Equity</li> <li>- International/Global Equity</li> <li>- Fixed Income</li> </ul> </li> <li>▶ Fixed Rate Option</li> <li>▶ No restriction on fund selection or required asset allocation</li> </ul>												
<p><b>Fund Transfers</b></p>	<p>Up to 12 free during any contract year. Up to \$25 per transaction thereafter. Maximum of 20 telephone or fax transfers per year. After 20 transfers, additional transfers may be made only with the company's consent. Any amount withdrawn from the PDA value to pay premiums is credited annual interest based on the number of days it was in the PDA before being withdrawn. The interest credited plus the amount withdrawn from the PDA equals the annual policy premium payment. Interest is never added to the PDA value.</li> <li>▶ Not available if the owner is a Non-Resident Alien.</li> <li>▶ The PDA can be canceled at any time for a refund of the PDA account value. Please see the PDA agreement for more information on this option.</li> </ul>

<sup>1</sup> The Survivorship BenefitAccess Rider is an optional rider that accelerates the life insurance death benefit when the surviving insured is chronically or terminally ill as defined in the rider, or both insureds are chronically or terminally ill as defined in the rider. It is not Long Term Care (LTC) insurance. Benefits received under the rider will reduce and may deplete the death benefit. Electing the Survivorship BenefitAccess Rider results in an additional charge and underwriting requirements. Some benefit payments may be subject to a fee. Other terms and conditions apply and can vary by state. If the clients' survivorship policy is owned by a trust or non-living entity, they should consult a tax advisor prior to electing the Survivorship BenefitAccess Rider. Clients should always consult their tax and legal advisors when considering the purchase of a life insurance policy and/or accelerated death benefit rider. This rider is not available in NY or CA.

<sup>2</sup> This rider can be added for an additional cost.
