

# HELP CLIENTS GAIN MOMENTUM WITH THIS NEW IUL

Prudential Momentum IUL<sup>SM</sup>

## Market context

Many high-income earners and business owners are drawn to supplemental retirement income options once they've made their maximum qualified plan contributions. They find value in having a tax-advantaged income source and appreciate having income sources that won't be impacted by market downturns with the potential for meaningful returns. Add to this that the indexed universal life (IUL) market has generated nearly \$4 billion a year in premiums with over 80% focused on accumulation designs, and it's easy to see where an IUL product makes sense.

## Prudential Momentum IUL<sup>SM</sup>

Momentum IUL is our latest entry to accommodate this market. It's a flexible premium universal life insurance product ideally suited for those consumers seeking death benefit protection and the potential to supplement their retirement income through a life insurance strategy.

## Product snapshot

Momentum is a competitive, accumulation-focused IUL tied to two well-known indexes plus a fixed account. It features:
