Participation Rate: The Participation Rate is the percent of the gain (if any) in the Index Value that is used to calculate the Index Growth Rate subject to the Index Growth Floor and Index Growth Cap. Participation Rates for new Indexed Account Segments may change, but they will never be lower than the guaranteed minimum Participation Rate for each Indexed Account as stated in the policy. Once an Index Account Segment is created, its Participation Rate will not change.

Index Growth Floor: The Index Growth Floor is the minimum rate of interest that will be applied to each Index Account Segment. Index Growth Floors for new Index Account Segments may change, but they will never be lower than the guaranteed minimum stated in the policy. Once an Index Account Segment is created, its Index Growth Floor will not change.

Index Growth Cap: The Index Growth Cap is the maximum rate of interest that can be credited on a particular Index Account Segment. The current growth cap rate for a Index Account Segment is determined in advance. It may be raised or lowered before the segment is created, but it will not be lower than the guaranteed minimum Index Growth Cap of 3.00% as stated in the policy. Once an Index Account Segment is created, its Index Growth Cap will not change. Index Growth Cap is not applicable to Goldman Sachs Voyager Indexed Account.

Participation Rate: The Participation Rate is the percent of the gain (if any) in the Index Value that is used to calculate the Index Growth Rate subject to the Index Growth Floor and Index Growth Cap. Participation Rates for new Indexed Account Segments may change, but they will never be lower than the guaranteed minimum Participation Rate for each Indexed Account as stated in the policy. Once an Index Account Segment is created, its Participation Rate will not change.

Index Growth Floor: The Index Growth Floor is the minimum rate of interest that will be applied to each Index Account Segment. Index Growth Floors for new Index Account Segments may change, but they will never be lower than the guaranteed minimum stated in the policy. Once an Index Account Segment is created, its Index Growth Floor will not change.

Index Growth Cap: The Index Growth Cap is the maximum rate of interest that can be credited on a particular Index Account Segment. The current growth cap rate for a Index Account Segment is determined in advance. It may be raised or lowered before the segment is created, but it will not be lower than the guaranteed minimum Index Growth Cap of 3.00% as stated in the policy. Once an Index Account Segment is created, its Index Growth Cap will not change. Index Growth Cap is not applicable to Goldman Sachs Voyager Indexed Account.

In particular, the Index may have a significant weight in one of those assets at the time of a sudden drop, or no exposure to one of those underlyings at a time it has a strong performance, or a significant weight to the cash component. Participation Rate: The Participation Rate is the percent of the gain (if any) in the Index Value that is used to calculate the Index Growth Rate subject to the Index Growth Floor and Index Growth Cap. Participation Rates for new Indexed Account Segments may change, but they will never be lower than the guaranteed minimum Participation Rate for each Indexed Account as stated in the policy. Once an Index Account Segment is created, its Participation Rate will not change.

Index Growth Floor: The Index Growth Floor is the minimum rate of interest that will be applied to each Index Account Segment. Index Growth Floors for new Index Account Segments may change, but they will never be lower than the guaranteed minimum stated in the policy. Once an Index Account Segment is created, its Index Growth Floor will not change.

Index Growth Cap: The Index Growth Cap is the maximum rate of interest that can be credited on a particular Index Account Segment. The current growth cap rate for an Index Account Segment is determined in advance. It may be raised or lowered before the segment is created, but it will not be lower than the guaranteed minimum Index Growth Cap of 3.00% as stated in the policy. Once an Index Account Segment is created, its Index Growth Cap will not change. Index Growth Cap is not applicable to Goldman Sachs Voyager Indexed Account.

Participation Rate: The Participation Rate is the percent of the gain (if any) in the Index Value that is used to calculate the Index Growth Rate subject to the Index Growth Floor and Index Growth Cap. Participation Rates for new Plus Account Segments may change, but they will never be lower than the guaranteed minimum Participation Rate of 100% for the Plus 100 Account as stated in the policy. Index Growth Cap: The Index Growth Cap is the maximum rate of interest that can be credited on a particular Plus Account Segment. The current growth cap rate for a Plus Account Segment is determined in advance. It may be raised or lowered before the segment is created, but it will not be lower than the guaranteed minimum Index Growth Cap of 3.00% as stated in the policy. Participation Rate: The Participation Rate is the percent of the gain (if any) in the Index Value that is used to calculate the Index Growth Rate subject to the Index Growth Floor and Index Growth Cap. Participation Rates for new Plus Account Segments may change, but they will never be lower than the guaranteed minimum Participation Rate of 100% for the Plus 100 Account as stated in the policy. Participation Rate: The Participation Rate is the percent of the gain (if any) in the Index Value that is used to calculate the Index Growth Rate subject to the Index Growth Floor and Index Growth Cap. Participation Rates for new Plus Account Segments may change, but they will never be lower than the guaranteed minimum Participation Rate of 50% for the Plus 50 Account and 100% for the Plus 100 Account as stated in the policy. Participation Rate: The Participation Rate is the percent of the gain (if any) in the Index Value that is used to calculate the Index Growth Rate subject to the Index Growth Floor and Index Growth Cap. Participation Rates for new Plus Account Segments may change, but they will never be lower than the guaranteed minimum Participation Rate of 50% for the Plus 50 Account and 100% for the Plus 100 Account as stated in the policy. Once a Plus Account Segment is created, its Participation Rate will not change.

Index Growth Floor: The Index Growth Floor is the minimum rate of interest that will be applied to a particular Plus Account Segment. Index Growth Floors for new Plus Account Segments may change, but they will never be lower than the guaranteed minimum Index Growth Floor of 0.00% as stated in the policy. Once a Plus Account Segment is created, its Index Growth Floor will not change.

The current growth cap rate for a Plus Account Segment is determined in advance. It may be raised or lowered before the segment is created, but it will not be lower than the guaranteed minimum Index Growth Cap of 3.00% as stated in the policy. Participation Rate: The Participation Rate is the percent of the gain (if any) in the Index Value that is used to calculate the Index Growth Rate subject to the Index Growth Floor and Index Growth Cap. Participation Rates for new Plus Account Segments may change, but they will never be lower than the guaranteed minimum Participation Rate of 50% as stated in the policy. Once a Plus Account Segment is created, its Participation Rate will not change.

Index Growth Floor: The Index Growth Floor is the minimum rate of interest that will be applied to a particular Plus Account Segment. Index Growth Floors for new Plus Account Segments may change, but they will never be lower than the guaranteed minimum Index Growth Floor of 0.00% as stated in the policy. Index Growth Cap: The Index Growth Cap is the maximum rate of interest that can be credited on a particular Plus Account Segment. The current growth cap rate for a Plus Account Segment is determined in advance. It may be raised or lowered before the segment is created, but it will not be lower than the guaranteed minimum Index Growth Cap of 3.00% as stated in the policy.
