Contingent Deferred Annuity

Issued by Pruco Life Insurance Company, Newark, NJ.

Effective Date: 2/27/2026

This table shows the current Income Percentages and Income Deferral Rates available for each issue age. Income Percentage is the income rate applied to the Income Base to determine your Annual Income Amount. The initial Income Percentage is assigned on the contract date based on your age, or the younger age of you and your spouse, and the Income Percentage can grow daily by the Deferral Rates. The Income Deferral Rate shown here is an annual percentage that is added as a daily amount to the Income Percentage on each Valuation Day during the Pre-Income Stage. The Deferral Rate applied is based on your attained age on each Contract Date Anniversary. The annual income amount will fluctuate each year based on account performance.
