Withdrawal Percentages

At the time of purchase, you will be assigned a Withdrawal Percentage that's based on your age or the age of the youngest spouse if electing the spousal benefit option.

The applicable Withdrawal Percentage is multiplied by your total Purchase Payment(s) to determine your initial Guaranteed Income Amount.

Guaranteed Income Amount				
\$100,000 Total Purchase Payment(s)	X	7.45% Withdrawal Percentage	=	\$7,450 Initial Guaranteed Income Amount

DAILY Income Growth Rate

Every day that you delay starting income means more guaranteed income for life. Your Guaranteed Income Amount grows daily by the 8.50% annualized simple fixed rate, referred to as the Income Growth Rate, until you are ready. This gives you the flexibility to start income, known as Lifetime Withdrawals, any day of your contract year AND still receive all lifetime income growth up to that point.

Income Growth Rate Credit				
\$7,450 Guaranteed Income Amount	X	8.50% Income Growth Rate	=	\$633 Per year credited daily <i>That's \$1.73 a day</i>

Fixed Interest Crediting Rate

Your Account Value is protected from market risk and is guaranteed to grow every day during the seven-year Initial Crediting Period by a fixed 3.00% Interest Crediting Rate that is compounded and credited daily. At the end of the Initial Crediting Period, a renewal rate will be assigned every year thereafter and guaranteed for one year. This hypothetical example assumes an individual at age 65. Please note some values have been rounded down for illustrative purposes.

Benefit Designations

If your personal situation evolves, you can change between single and spousal benefit options at any time before you start taking income. The annual benefit charge for the Guaranteed Lifetime Withdrawal Benefit for both single and spousal options is 0.95% of the Account Value on the contract anniversary.
